WORK EXPERIENCE

Business Systems Analytics Intern, Alfred Lerner College, Newark

January 2025-June 2025

- Engineered an **Alteryx** pipeline that unified 100,000+ student records, cut inconsistencies by 70%, automated validation, and produced multivariate models exposing drivers of scheduling load, guiding data-backed workload balancing.
- Leveraged interactive reports in **Qlik** to track real-time enrolment and forecast trends, surfacing high-impact factors and accelerating decisions 40%, mitigating scheduling risks and boosting efficiency across teams.
- Implemented a **full-stack** course scheduling system using **Node.js, PostgreSQL, and React**, integrating a **Python-based algorithm** with OR-Tools to streamline scheduling, reduce conflicts by 75%, and improve planning efficiency by 65% by freeing 50+ staff hours.

Graduate Assistant, University of Delaware, Newark

January 2025-May 2025

- Instructed 120+ students in Information Systems by leading Big 4-inspired case workshops and designing a hands-on Oracle DB module, equipping students with practical skills in **Power BI, Excel analytics**, and **data modelling**.

Data Analyst Intern, Craftsman Automation, Coimbatore

November 2024- February 2025

- Constructed an **ETL pipeline** to migrate customer and sales data from on-premise **CRM** to cloud storage, reducing data processing time by 10 hours per week.
- Built **real-time dashboards** and abnormal pattern detection in order loss and customer churn, reducing lost orders by 15%.
- Collaborated with cross-functional teams to define data pipelines and 9+ KPIs, boosting sales and marketing performance tracking efficiency.

Assurance Analyst, Ernst & Young, Bengaluru

September 2022- September 2023

- Performed **variance analysis, control testing, and data reconciliations** for 20 Fortune 500 clients across EMEA & Asia, identifying reporting discrepancies and enhancing GAAP compliance processes by 20%.
- Developed and presented **audit-support reports** using **Tableau and R**, identifying anomalies in inventory valuation and recommending corrective actions, leading to a 15% improvement in inventory accuracy.
- Spearheaded weekly finance sessions to map processes, identify financial risks, and implement mitigations, reducing control issues by 15%.
- Executed **walkthroughs and substantive audit analysis** across revenue, expenses, inventory valuation identifying \$2M in misallocated expenses and improving audit efficiency by 10%.

Sales and Operations Analytics Intern, Aditya Birla Capital, Coimbatore

March 2021- June 2021

- Conducted root cause analysis using **SQL and Power BI** to detect investor trends and lapses in renewal behaviour, reducing manual effort by 20% and improving reporting accuracy by 25%.
- Deployed machine learning models using **Scikit-learn and Pandas** to segment investors based on portfolio data, resulting in 28 new client acquisitions and a 15% increase in conversion rates.

EDUCATION

Master of Science in Business Analytics and Information Management

January 2024-May 2025

University of Delaware; GPA: 4.0 /4.0

Coursework: Database design and implementation, Gen AI for Business Analytics, Dashboard Design, Project Management

Bachelor of Commerce (Honors) in Finance and Investment

June 2019-May 2022

Christ University; GPA: 3.88/4.0

Coursework: Corporate Strategy & Data-Driven Decision Making, Business Statistics and quantitative methods, ERP

CERTIFICATIONS

- Alteryx Designer Core Certified.
- Qlik Sense Business Analyst Qualification.

SKILLS

Business Intelligence & Analytics: Tableau, Power BI, Qlik, Alteryx Designer, Excel (Power Query, Pivot Tables)

Programming: SQL, Python, R, SAS

Databases & Tools: MySQL, PostgreSQL, MS Access, Oracle, Git, Github, ETL Pipelines, Snowflake

Data Wrangling & Modelling: pandas, NumPy, scikit-learn, XGBoost, Regression, Forecasting, Hypothesis Testing, A/B Testing, Clustering

Cloud & Agile Tooling: AWS (S3, RDS), JIRA, Confluence, MS Project, Agile (Scrum, Kanban)

PROJECTS

Market Performance and Route Optimization (Airline)

- Analyzed flight-level data to identify top-performing airline routes using profitability, delays, and occupancy metrics. Applied min-max scaling, built route scoring logic and interactive dashboards to support data-driven investment recommendations.

Investor Sentiment Analysis (Gen Z vs. Millennials)

- Orchestrated a comparative study on Gen Z and Millennial investment behaviour using regression analysis and ANOVA, identifying a 35% rise in Gen Z's investment driven by digital platforms and fintech accessibility.
