EDUCATION

Master's in Business Analytics and Information Management

January 2024-May 2025

University of Delaware; GPA: 4.0 /4.0.

Coursework: Advanced Data Analytics, Database Systems, Data Visualization, Statistical Programming, Generative AI, Business Intelligence.

Bachelor of Commerce (Honors) in Finance and Investment

June 2019-May 2022

Christ University; GPA: 3.9/4.0.

Coursework: Business Analytics, Quantitative Techniques for Decision Making, Financial Analytics and Modelling, Pricing Analytics.

SKILLS

- Programming Languages: Python (Pandas, NumPy), R (Dplyr, ggplot2), SAS.
- Databases & Data Management: SQL & Relational Databases (MySQL, PostgreSQL, Oracle, SQLite).
- Business Intelligence & Analytics: Tableau, Power BI (DAX), Qlik, Alteryx (ETL/Data Prep), Excel (Pivot, VLOOKUP, Analysis).
- Statistical Analysis: Regression Analysis, Time Series Forecasting, Predictive Modelling.
- Business Tools: Zoho CRM, Slack, Google Workspace, Microsoft Office Suite.

WORK EXPERIENCE

Technology and Analytics Intern, Alfred Lerner College of Business & Economics

January 2025-Present

- Engineered student enrollment and course demand analytics using Qlik Sense and Alteryx, transforming 100,000+ datapoints into predictive dashboards that guided strategic decisions on in-house vs. vendor solutions.
- Leveraged Agile and Scrum methodologies, conducting weekly sprint reviews and achieving 100% on-time delivery of project components.
- Implemented a full-stack course scheduling system using Node.js, PostgreSQL, and React, integrating a Python-based algorithm with OR-Tools to optimize scheduling, reduce conflicts by 45%, and improve planning efficiency by 65% by freeing 50+ staff hours.

Graduate Assistant, University of Delaware

January 2025-Present

- Instructed 120+ students in Accounting Information Systems, integrating Big 4 case study workshops and designing a database course using Oracle DB for financial data management.
- Guided students in using Power BI and Excel to perform financial analysis and deliver insights.

Data Analyst Intern, Craftsman Automation, Coimbatore

December 2024- January 2025

- Developed an ETL pipeline to extract customer and sales data from the CRM system, transform it for consistency, and load it into cloud storage, enabling 30% faster real-time analysis of sales performance and customer retention trends.
- Built real-time dashboards with key metrics to track sales trends, lost orders, and customer retention, reducing lost orders by 15%.
- Collaborated with internal teams and stakeholders to identify and define data conversion requirements and 5+ KPIs to drive performance within the sales and marketing division.

Assurance Analyst, Ernst & Young GDS, Bengaluru

September 2022- September 2023

- Performed variance analysis, control testing, and data reconciliations for 20 Fortune 500 clients across EMEA & Asia, identifying reporting discrepancies and enhancing GAAP compliance processes by 20%.
- Developed and presented audit-support reports using Tableau and R, identifying anomalies in inventory valuation and recommending corrective actions, leading to a 15% improvement in inventory accuracy.
- Spearheaded weekly finance sessions to map processes, identify financial risks, and implement mitigations, reducing control issues by 15%.
- Conducted walkthroughs and substantive audit analysis across revenue, expenses, inventory valuation identifying \$2M in misallocated expenses and improving audit efficiency by 10%.

Sales and Operations Analytics Intern, Aditya Birla Capital, Coimbatore

April 2021- May 2021

- Constructed automated dashboards and reports using SQL and Tableau to track investor activity, fund renewals, and service requests, reducing manual effort by 20% and improving reporting accuracy by 25%.
- Leveraged Scikit-learn, Pandas, SciPy to segment investors and score leads, applying k-means clustering, logistic regression, and hypothesis testing on portfolio and behaviour data, contributing to 28 new client acquisitions and a 15% increase in conversion rates.

PROJECTS

Hotel Management Database System

2024

- Designed a hotel management database system using MySQL, creating an ERD with 10+ relational tables including Guests, Reservations, and Staff. Utilized normalization and queries (Window functions, CTEs) to improve data integrity and drive strategic business analysis.

Study of the attitude of Gen Z and Millennials towards Investing

2022

- Orchestrated a comparative study on Gen Z and Millennial investment behaviour using regression analysis and ANOVA, identifying a 35% rise in Gen Z's investment driven by digital platforms and fintech accessibility.

LEADERSHIP ROLES

- President Student Advisory Council, University of Delaware - Led student representation and campus engagement initiatives.
- Rotary Youth Exchange Student, NRW, Germany - Facilitated global exchange through cross-cultural communication.
